## Meeting the need for qualified staff in the ever growing MOT sector

**Premier MOT Training is the UK's longest established independent Automotive & MOT Training Provider, catering to 600 plus students every year.**

Specialising in Automotive Training for the Automotive Industry they cover a varied range of courses including Level 3 accreditation for those without formal industry qualifications, but with lots of experience; MOT Tester Training Classes 1, 2, 4 & 7; Class 3 and 5 bolt on and The Level 3 Managers qualification.

All our Trainers are qualified MOT Testers, qualified to Master Tech Level, all qualified in teaching training who have worked within the industry & colleges for many years to gain their expert knowledge.

Being one of the very few training providers who deliver the Award in MOT testing Classes 1 & 2 (motorbikes) at both of our in Essex and Derbyshire training centres.

We have a great working relationship with the DVSA and Awarding Bodies.

Donna Chapman, Managing Director, says "we have looked at the sheer numbers of tests being carried out and with over 9,000,000 tests being carried out in the first quarter of 2022, it's no wonder we've been inundated with students wanting training of this type." Readers may be interested to know that there are over 20,000 stations in the UK and almost 60,000 testers, so it's no wonder the market demand is at its highest.

Donna continues "One of the biggest areas we have noticed growth in is on Managers training.

With the recent DVSA changes a senior manager can now become the AEDM but if it isn't one of the Principles (AEP) and AEP must also attend the course. We have also noticed several existing AEDM's returning for an up skill to help with their stations compliance.

Many stations aren't aware that site managers, even though it is not a requirement, can sit the managers course". Premier MOT have increased their availability of the Level 3 in MOT Centre Management courses to ensure we can meet the demand.

## 3300-24 TYRE CHANGER

PART NO: EEWH762AED

Use automatic turntable speed control while also dealing with larger and ultra-high performance tyres with the Hofmann monty 3300-24 smartSpeed tyre changer.

It offers a high productivity speed via the built-in smartSpeed inverter technology which automatically controls the speed of the turntable dependant on the torque required when mounting/demounting the tyre, along with a large 24-inch outer clamping range.

Pair up the monty 3300-24 smartSpeed with the Hofmann geodyna® 7200 wheel balancer to create a tyre and wheel service package for your workshop.

- Pneumatic tilting column: Move the tilting column backwards easily so you are free to access the tyre
- Assist arm: Mount and demount tyres with ease using the drop centre & rim centre pressing tools
- Two pneumatic cylinders: Get a 30-40% increase in clamp force compared to single cylinder designs
- Mount/demount function: The steel head and plastic inserts protect the wheel rim when mounting and demounting tyres
- smartSpeed: Automatically select the best speed for the operation being performed giving you a more controlled operation
- Built in tool box, tyre inflator and standard gauge: Provides ease of use and ergonomic benefits
- Wheel clamps: The 3300 24 has a total clamping up to 28in (with additional adaptors; 24in as standard)
